Profile / overview. Advisor based in Lyon, France, working across commercial systems delivery, CPG finance, RGM / TPM / TPO, trade governance, ERP-centered execution, teaching and facilitation, applied AI, simulation, and practical build work.

I help organizations turn commercial intent into working systems, governed decisions, and practical tools people can use. The recurring operating pattern is translation across functions, diagnosis of execution breakpoints, practical governance design, and hands-on tools that make consequences visible.
